

## Contents

<b>Rastislav Rusnačko and Ivan Žežula</b> , <i>Comparison of estimators of variance parameters in the growth curve model with a special variance structure</i> .....	171
<b>T. RamReddy, D. Shalini, D. Vamshee Krishna, and B. Venkateswarlu</b> , <i>Coefficient inequality for transforms of certain subclass of analytic functions</i> .....	185
<b>Abhijit Banerjee and Santanu Dhar</b> , <i>A note on a new unique range set with truncated multiplicity</i> .....	195
<b>Rajibul Mian and Sudhir Paul</b> , <i>Tests of exponentiality against some parametric over/under-dispersed life time models</i> .....	207
<b>Artion Kashuri and Rozana Liko</b> , <i>Uncertain fuzzy Ostrowski type inequalities for the generalized <math>(s, m)</math>-preinvex Godunova–Levin functions of second kind</i> .....	225
<b>Mart Abel, Mati Abel, and Paul Tammo</b> , <i>Coincidence of topological Jacobson radicals in topological algebras</i> .....	239
<b>Aydin Sh. Shukurov</b> , <i>On basicity of the degenerate trigonometric system with excess</i> .....	249
<b>Prasanta Kumar Ray</b> , <i>On the properties of <math>k</math>-balancing and <math>k</math>-Lucas-balancing numbers</i> .....	259
<b>Şahsene Altınkaya and Yeşim Sağlam Özkan</b> , <i>On Salagean type pseudo-starlike functions</i> .....	275
<b>V. Darvish, S. S. Dragomir, H. M. Nazari, and A. Taghavi</b> , <i>Some inequalities associated with the Hermite–Hadamard inequalities for operator <math>h</math>-convex functions</i> .....	287
